Authors:

Ellen Van Wyk, John Carr
CAE Systems & Software Environments Team
Jet Propulsion Laboratory, California Institute of Technology
This is a non-copyrighted Open Source contribution

This document contains User Interface wireframe concepts and designs for a future version of View Editor web application.

View Editor is a published application that is part of the OpenMBEE suite of open source systems engineering software.

<https://www.openmbee.org>

View Editor enables users to interact with SysML models on the web. It implements the MMS REST API to provide a web environment to create, read, and update model elements, including Documents and Views.
